LAMATEK, Inc, supplier of flexible tapes and gaskets for the fenestration market, introduces PVC Eco-Blocks™ to their Greensteps™ product line. These post-consumer, color-coded setting blocks are a drop-in replacement for your current setting blocks made from a proprietary 85 Durometer PVC blend. Eco-Blocks™ have been rigorously tested and proven to be compatible with glazing and IG sealants. These are available with or without a time-tested acrylic adhesive. Contact Janine Clauss today at 1-800-LAMATEK for free samples or more information. To learn more about LAMATEK's complete line of fenestration specific products, visit us at www.lamatek.com.
